

## Do you work with people nearing the end of their lives?

Would you like to meet with others in the same situation to:

- share good practice
- discuss specific issues with speakers from many backgrounds, all having special expertise in EoLC (eg funeral directors, nurse specialists, patients own stories, MND coordinator and many more)
- network with colleagues from other organisations
- support and be supported by people who share your passion in EoLC.

## End of Life Care Support Forums are coming to your area SOON!

They will meet at the same time, the same place each month.

No need to book – come if you can!

There is so much expertise and talent within EoLC – let's share that through these forums.
